%, n = 5 030, POPULATION OF EACH COUNTRY aged 16 to 26, CAWI, 2018 Feb May

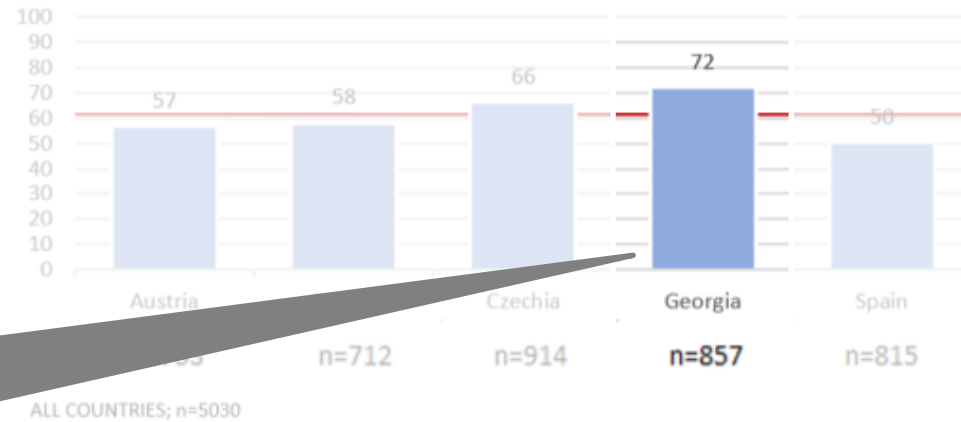

How long?

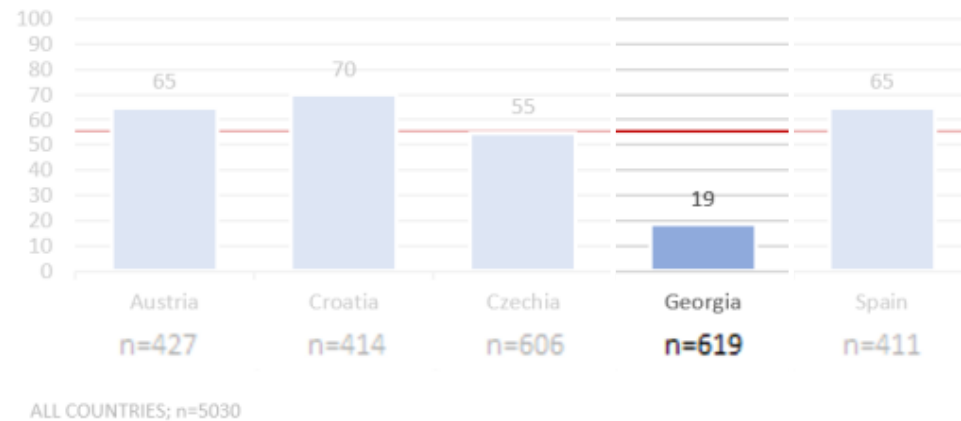

Q2 Have you faced situation when your partner (current or anyone in the past)...

While prevention in Georgia is rather poor, willingness to stay in damaged relationship for longer time is low

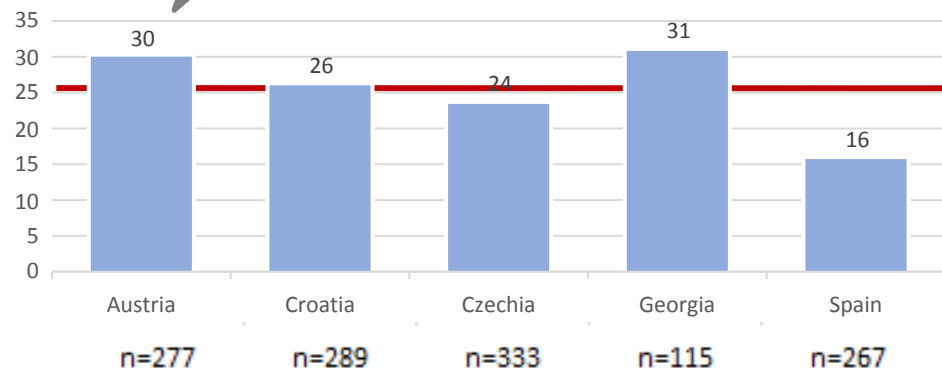

Q3 Were you facing this/these situation(s) in one (any) relationship for longer time, some months for example?

30 % of young Austrians facing one or more situations for longer time did not take any action 

Question: Do you try to solve such situation? If so, how?

NO ACTION

%, n = 5 030, POPULATION OF EACH COUNTRY aged 16 to 26, CAWI, 2018 Feb May

Action taken?

Touch point to help victims to take action

Young Spanish people take actions most often!

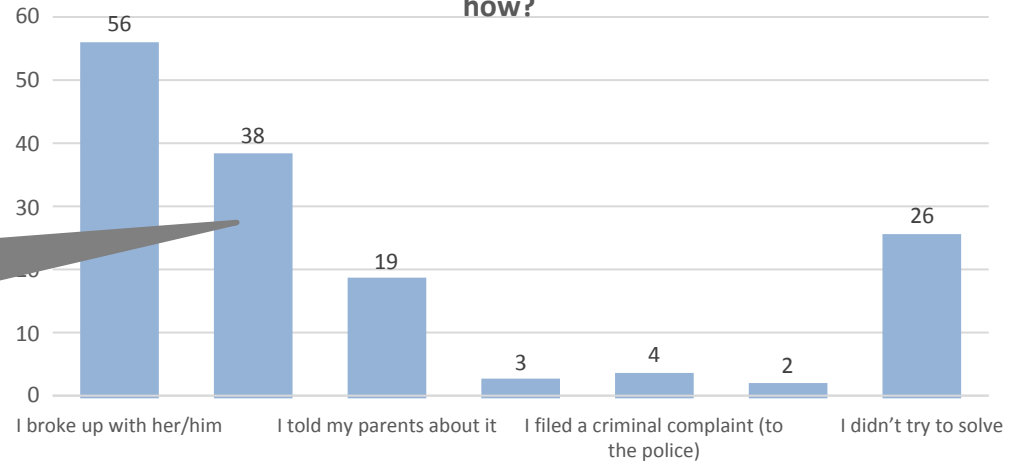

Young Georgians do not talk with friends neither parents, generally solve less as Austrians.

Czechs are specialists in sharing info with friends

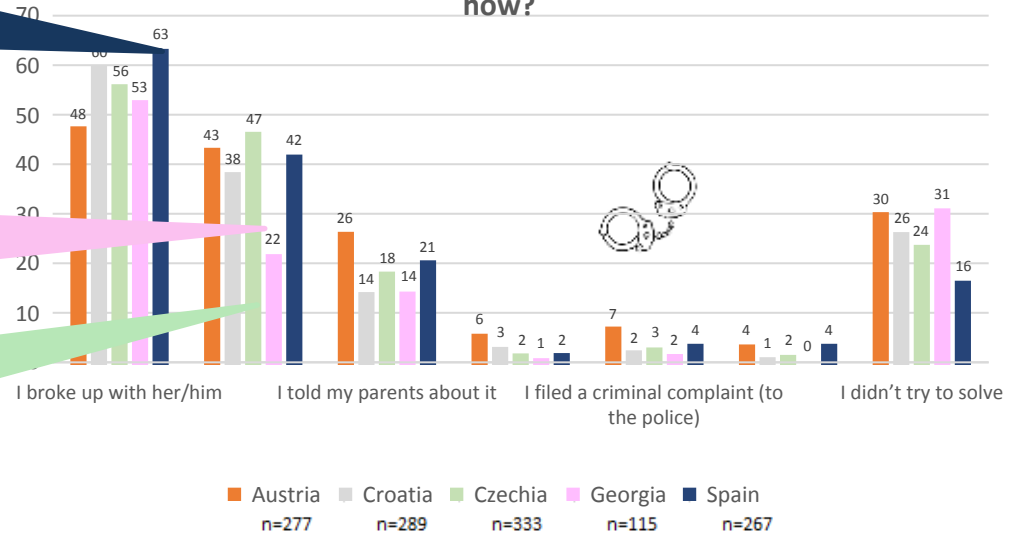

Q5 Did you try to solve such situation? If so, how?

simple average; n=1281

IPV INDEX

IPV INDEX qualification

Posting publicly your intimate photos or your contacts or photos in erotic advertising/context

▪ 1) **severe** situations

- situations „once is enough“
- situations „repeatedly“

Trying to limit your contact with your friends and family

▪ 2) **moderate** situations - combination of two situations

- while in case of some situations „once is enough“
- in case of the others „repeated occurrence needed“

Emotional blackmail (“if you don’t do ... I will break up with you”, if you leave me, I’ll commit suicide”)

▪ 3) **mild** situations

- combination of three situations with repeated occurrence

Spreading details (also untrue) about very personal intimate things

Letting you pay his/her expenses without his/her participation, in fact she/he lived off of me

Insisting on knowing where you are and what you do
